

Environmental Policy

We at PGE Landscaping Limited realise that planned prevention or the reduction of pollution is less damaging and more cost effective to perform in advance than rectification after the event. It is therefore sensible to minimise waste and pollution to reduce the long-term effect and remedial cost.

Our policy begins with a consideration of the impact of our activities on both the local and wider communities and will take into account the use of energy and disposal of waste.

Therefore we have the following commitments and objectives to:-

- Minimise disturbance to the local and global environment and to the quality of life to the local community
- Comply with all relevant statutory regulations
- Maintain appearances and highest environmental standards within our premises
- Take positive steps to conserve scarce and non-renewable resources
- Assess, in advance where possible, environmental effects of our activities
- Provide necessary information to enable proper use, storage and disposal of products to avoid harm to the environment
- Provide necessary information to enable employees to operate processes and procedures properly to minimise effects on humanity and the environment
- Keep the public informed of any major new projects in the locality

Overall

To develop our business paying full regard to the environment and where practical, taking into account the view of all parties whose interest may be affected

We will act in accordance with appropriate codes of practise and will communicate this policy to everyone

Organisation

The Managing Director has ultimate responsibility for this policy and through the management team and staff, will direct this policy to all interested parties
